The Honorable Board of Supervisors

Los Angeles, CA 90012

Dear Supervisors:

**FLORENCE AREA ENHANCED MAINTENANCE SERVICE
SUPERVISORIAL DISTRICTS 1 AND 2
3 VOTES**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find that the contract work is exempt from the provisions of the California Environmental Quality Act (CEQA).
2. Find that this service can be more economically performed by an independent contractor than by County employees.
3. Award the contract for the Florence Area Enhanced Maintenance Service in the annual sum of \$246,000 to Woods Maintenance Services, Inc., d.b.a. Hydro Pressure Systems, located in North Hollywood, California. This contract will be for a period of one year commencing on July 1, 2006, with two 1-year renewal options, not to exceed a total contract period of three years. Funds are available in Public Works' 2006-07 Road Fund budget.
4. Delegate authority to the Director of Public Works to expend an additional 10 percent of the annual contract sum for unforeseen additional work within the scope of the contract, if required.
5. Authorize the Director to renew this contract for each additional renewal option, if, in the opinion of the Director, renewal is warranted; to grant

month-to-month extensions in the final contract term not exceeding a total of six months, for the convenience of the County; to terminate it, if, in the opinion of the Director, it is in the best interest of the County to do so; and to execute any future Board-approved amendments.

6. Instruct the Mayor to execute this contract.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of this action is to continue contracting for the Florence Area Enhanced Maintenance Service. This contract provides enhanced maintenance service to maintain the area along East Florence Avenue in Supervisorial Districts 1 and 2, within the unincorporated County. The work to be performed will consist of the removal of consumer-generated trash and litter, gum and grease on the sidewalks, and the steam cleaning of public sidewalks within the road rights of way. The maintenance services provided in this contract will enhance the public's desire to shop with the local merchants. Public Works has contracted for this service since January 2003.

Implementation of Strategic Plan Goals

The award of this contract is consistent with the County Strategic Plan Goals of Service Excellence, Organizational Effectiveness, and Fiscal Responsibility as the contractor has the specialized expertise to provide this service accurately, efficiently, timely, and in a responsive, and cost-effective manner.

FISCAL IMPACT/FINANCING

The contract is for an annual amount not to exceed \$246,000, plus 10 percent for unforeseen, additional work that may be from the extra work required during the holidays. This contract will commence on July 1, 2006, for a period of one year. With the Board's delegated authority, the Director may renew this contract for a total contract period not to exceed three years.

Financing for this service is included in Public Works' 2006-07 Road Fund budget. Total annual expenditures for this service, however, will not exceed the contract amount approved by your Board. There will be no impact on net County cost.

Using methodology approved by the Auditor-Controller, Public Works has calculated the cost-effectiveness of contracting for this service. Based on the cost calculations,

Public Works has determined that this service can be more economically performed by an independent contractor than by County employees.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The contract, which is enclosed as Enclosure A, has been executed by the contractor and approved as to form by County Counsel.

Public Works has determined that the contractor complies with the requirements of the Living Wage Program (Los Angeles County Code Chapter 2.201) and agrees to pay its full-time employees providing County services a living wage.

Public Works has accessed available resources to review and assess the proposed contractor's past performance, history of Labor Law violations, and prior performance on County contracts.

ENVIRONMENTAL DOCUMENTATION

This service is categorically exempt from the CEQA as specified in Class 1 of the Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, Synopsis 57.

CONTRACTING PROCESS

On February 27, 2006, Public Works solicited proposals from 474 independent contractors and community business enterprises to accomplish this work. A notice of the Request for Proposals (RFP) was not placed on the County's bid website due to an isolated internal oversight during the solicitation process. We have incorporated additional steps internally to eliminate future recurrence of this oversight. Notice of the RFP was advertised in the Los Angeles Times.

Pursuant to the Memorandum of Understanding, the RFP of this contracted service was submitted on February 23, 2006, to the union for review before being released to the public. The union declined to meet with Public Works.

On April 3, 2006, six proposals were received. The proposals were first reviewed to ensure they met the mandatory requirements outlined in the RFP. Two proposals were determined to be nonresponsive for failure to provide the required State contractor's license as required in the RFP. The remaining proposals, having met these requirements, were then evaluated by an evaluation committee consisting of

Public Works staff. The committee's evaluation was based on criteria described in the RFP, which included price, experience, staffing plan, financial resources, references, equipment, and labor-payroll record keeping. Based on this evaluation, it is recommended that this contract be awarded to the most responsive and responsible proposer, Woods Maintenance Services, Inc., d.b.a. Hydro Pressure Systems, located in North Hollywood, California.

Enclosure B reflects the proposers' minority participation. The contractor was selected upon final analysis and consideration without regard to race, creed, gender, or color.

This contract contains terms and conditions supporting Board-sponsored policies such as contractor responsibility and debarment (revised), jury service requirements, the Safely Surrendered Baby Law, and charitable activities compliance.

Proof of the required Comprehensive General and Automobile Liability insurance policies, naming the County as additional insured, and evidence of Workers' Compensation insurance will be obtained from the contractor before any work commences.

As requested by your Board, the contractor has submitted a safety record which, in our opinion, reflects that activities conducted by the contractor in the past have been according to reasonable standards of safety.

In accordance with the Chief Administrative Officer's June 15, 2001, instructions, this is Public Works' assurance that this contractor will not be requested to perform services that will exceed the contract's approved amount, scope of work, and/or terms.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The award of this contract will not result in the displacement of any County employees, as this service is presently contracted with the private sector.

The Honorable Board of Supervisors

Respectfully submitted,

1. In any case of the Contractor's failure to meet certain specified performance requirements, the County may, in lieu of other remedies provided by law or the Contract, assess liquidated damages in specified sums and deduct them from any regularly scheduled payment to the Contractor. 2. The amounts of liquidated damages have been set in recognition of the following circumstances existing at the time of the formation of the Contract:
 - a. All of the time limits and acts required to be done by both parties are of the essence of the Contract;

 - c. The Contract contains a reasonable statement of the work to be performed in order that the expectations of the parties to the Contract are realized. - d. The parties are not under any compulsion to contract;
 - e. The Contractor's acceptance of the assessment of liquidated damages against it for unsatisfactory and late performance is by agreement and willingness to be bound as part of the consideration being offered to the County for the award of the Contract;
 - f. It would be difficult for the County to prove the loss resulting from nonperformance or untimely, negligent, or inadequate performance of the work; and
 - g. The liquidated sums specified represent a fair approximation of the damages incurred by the County resulting from the Contractor's failure to meet the performance standard as to each item for which an amount of liquidated damages is specified.

However, in the event any such sale, transfer, exchange, assignment, or divestment is effected in such a way as to give majority control of the Contractor to any person(s), corporation, partnership, or legal entity other than the majority controlling interest therein at the time of execution of this Contract, such disposition is an assignment requiring the prior written consent of the County in accordance with applicable provisions of this Contract.
3. Any assumption, assignment, delegation, or takeover of any of the Contractor's duties, responsibilities, obligations, or performance of same

In the event of such termination, County shall be entitled to pursue the same remedies against the Contractor as it could pursue in the event of default of the Contractor.

U. Subcontracting

1. No performance of this Contract or any portion thereof may be subcontracted by the Contractor without the express written consent of the Director, at the Director's sole and absolute discretion. notice thereof, including all relevant information with respect thereto, to the other party.

X. Record Retention and Inspection/Audit Settlement

The Contractor shall maintain accurate and complete financial records of its activities and operations relating to this Contract in accordance with generally accepted accounting principles. The Contractor shall also maintain accurate and complete employment and other records relating to its performance of this Contract. The Contractor agrees that the County, or its authorized representatives, shall have access to and the right to examine, audit, excerpt, copy, or transcribe any pertinent transaction, activity, or record relating to this Contract. All such material, including, but not limited to, all financial records, bank statements, cancelled checks, or other proof of payment, timecards, sign-in/sign-out sheets, other time and employment records, and proprietary data and information shall be kept and maintained by the Contractor and shall be made available to the County during the term of this Contract and for a period of five years thereafter unless the County's written permission is given to dispose of any such material prior to such time. All such material shall be maintained by the Contractor at a location in the County, provided that if any such material is located outside the County, then, at the County's option, the Contractor shall pay the County for travel, per diem, and other costs incurred by the County to examine, audit, excerpt, copy, or transcribe such material at such other location.

1. In the event that an audit of the Contractor is conducted specifically regarding this Contract by any Federal or State auditor, by any auditor or accountant employed by the Contractor, or otherwise, then the Contractor shall file a copy of such audit report with the County's Auditor-Controller within 30 days of the Contractor's receipt thereof, unless otherwise provided by applicable Federal or State law or under this Contract. The County shall make a reasonable effort to maintain the confidentiality of such audit report(s).
2. Failure on the part of the Contractor to comply with any of the provisions of this paragraph X shall constitute a material breach of this Contract upon which the County may terminate or suspend this Contract.
3. If, at any time during the term of this Contract or within five years after the expiration or termination of this Contract, representatives of the County conduct an audit of the Contractor regarding the work performed under this Contract, and if such audit finds that the County's dollar liability for any such work is less than payments made by the County to the Contractor, then the difference shall be either: a) repaid by the Contractor to the County by cash payment upon demand, or b) at the sole option of the County's Auditor-Controller, deducted from any amounts due to the Contractor from the County, whether under this Contract or otherwise. If such audit finds that the County's dollar liability for such work is more than the payments

made by the County to the Contractor, then the difference shall be paid to the Contractor by the County by cash payment, provided that in no event shall the County's maximum obligation for this Contract exceed the funds appropriated by the County for the purpose of this Contract.

4. In addition to the above, the Contractor agrees, should the County or its authorized representatives determine, in its sole discretion, that it is necessary or appropriate to review a broader scope of the Contractor's records (including, certain records related to, non-County contracts) to enable the County to evaluate the Contractor's compliance with the County's Living Wage Program, that the Contractor shall promptly and without delay provide to the County, upon the written request of the County or its authorized representatives, access to and the right to examine, audit, excerpt, copy, or transcribe any and all transactions, activities, or records relating to any of its employees who have provided services to the County under this Contract, including, without limitation, records relating to work performed by said employees on the Contractor's non-County contracts. The Contractor further acknowledges that the foregoing requirement in this subsection X.4 relative to Contractor's employees who have provided services to the County under this Contract is for the purpose of enabling the County in its discretion to verify the Contractor's full compliance with and adherence to California labor laws and the County's Living Wage Program. All such materials and information, including, but not limited to, all financial records, bank statements, cancelled checks or other proof of payment, timecards, sign-in/sign-out sheets, other time and employment records, and proprietary data and information, shall be kept and maintained by the Contractor and shall be made available to the County during the term of this Contract and for a period of five years thereafter unless the County's written permission is given to dispose of any such materials and information prior to such time. All such materials and information shall be maintained by the Contractor at a location in the County, provided that if any such materials and information is located outside the County, then, at the County's option, the Contractor shall pay the County for travel, per diem, and other costs incurred by the County to examine, audit, excerpt, copy, or transcribe such materials and information at such other location.

Y. Validity

If any portion, provision, or part of this Contract is held, determined or adjudicated to be invalid, unenforceable, or void for any reason whatsoever, each such portion, provision, or part shall be severed from the remaining portions, provisions, or parts of this Contract, and (to the extent allowed by law) shall not affect the validity or enforceability of such remaining portions, provisions, or parts.

Z. Waiver

No waiver by the County of any breach of any provision of this Contract shall constitute a waiver of any other breach of such provision. Failure of the County to enforce at anytime, or from time to time, any provision of this Contract shall not be construed as a waiver thereof. The rights and remedies set forth in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

AA. Default and Termination

1. Default

- a. The County may, subject to the provisions of subsection c (pertaining to defaults of subcontractors) below, by written notice of default to the Contractor, terminate the whole or any part of this Contract in any one of the following circumstances:
 - i. If the Contractor has materially breached this Contract; or
 - ii. If the Contractor fails to perform the work within the time specified herein or any extension thereof; or
 - iii. If the Contractor fails to perform any of the other provisions of this Contract or so fails to make progress as to endanger performance of this Contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of five working days (or such longer period as the County may authorize in writing) after receipt of notice from the County specifying such failure.
- b. In the event the County terminates this Contract in whole or in part pursuant to this subsection, the County may procure, upon such terms and in such manner as the County may deem appropriate, goods and services similar to those so terminated, and the Contractor shall be liable to the County for any excess costs for such similar goods and services, provided that the Contractor shall continue the performance of this Contract to the extent not terminated under the provisions of this clause.
- c. Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform this Contract arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the County in either its sovereign or contractual capacity, acts of the Federal or State government in its sovereign capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight

embargoes, and unusually severe weather; but in every case, the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule.

- d. If, after Notice of Termination of this Contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause or the default was excusable under the provisions of this clause, the rights and obligations of the parties shall be the same as if the Notice of Termination had been issued pursuant to this Exhibit's Section 2.AA.3, Termination for Convenience.
- e. The rights and remedies of the County provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.
- f. As used herein, the terms "subcontractor" and "subcontractors" mean persons, companies, corporations, or other organizations furnishing supplies, services of any nature, equipment, or materials to Contractor, at any tier, under oral or written agreement.

2. Default for Insolvency

The County may terminated this Contract forthwith for default in the event of the occurrence of any of the following:

- a. Insolvency of the Contractor. The Contractor shall be deemed to be insolvent if it has ceased to pay its debts in the ordinary course of business or cannot pay its debts as they become due, whether it has committed an act of bankruptcy or not, and whether insolvent within the meaning of the Federal Bankruptcy Law or not.
- b. The filing of a voluntary petition to have the Contractor declared bankrupt.
- c. The appointment of a Receiver or Trustee for the Contractor.
- d. The execution by the Contractor of an assignment for the benefits of creditors.

- e. The rights and remedies of the County provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

3. Termination for Convenience

It is not the intent of the County to terminate this Contract before the completion of all items except for sound business reasons of which the County shall be the sole judge; however, and notwithstanding:

- a. The County reserves the right to renegotiate the terms of this Contract to reduce the Contractor's compensation in the event such reduction is necessary, in the sole discretion of the County, to achieve County budget reductions. Nothing in this paragraph is intended to diminish the County's right to terminate this Contract as provided herein.
- b. The County may at any time terminate this Contract, or any portion thereof, without liability (except as hereinafter provided) by delivering to the Contractor written notice specifying the desired termination date at least 30 days in advance thereof.
- c. If this Contract is terminated, the Contractor shall, within 30 days of the Notice of Termination, complete those items of work which are in various stages of completion, which the Director determines are necessary to bring the work to a timely, logical, and orderly end. 4. Termination for Breach of Warranty to Maintain Compliance with County's Child Support Requirements

Failure of the Contractor to maintain compliance with the requirements set forth in this Exhibit's Section 2.F, "Contractor's Warranty of Adherence to County's Child Support Compliance Program" shall constitute a default by the Contractor under this Contract. Without limiting the rights and remedies available to the County under any other provision of this Contract, failure to cure such default within 90 calendar days of notice by the Los Angeles County Child Support Services Department shall be grounds upon which the Board may terminate this Contract pursuant to Paragraph AA.1 "Default," of this Section 2, and debar the Contractor pursuant to County Code Chapter 2.202.

4. The Board or the County's Chief Administrative Officer may require the addition and/or change of certain contract terms and conditions during the term of this Contract. The County reserves the right to add and/or change such provisions as are required by the Board or the Chief Administrative

- E. The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. The Contractor and/or the Contractor's representative shall be given an opportunity to submit evidence at that hearing. After the hearing, the Contractor Hearing Board will prepare a proposed decision, which shall contain a recommendation regarding whether the Contractor should be debarred, and, if so, the appropriate length of time of the debarment. The Contractor and Public Works shall be provided an opportunity to object to the tentative proposed decision prior to its presentation to the Board.

B. Payment of Living Wage Rates

1. Unless Contractor has demonstrated to the County's satisfaction either that Contractor is not an "Employer" as defined under the Living Wage Program (Section 2.201.020 of the County Code) or that Contractor qualifies for an exception to the Living Wage Program (Section 2.201.090 of the County Code), Contractor shall pay its Employees no less than the applicable hourly living wage rate, as set forth immediately below, for the Employees' services provided to the County, including, without limitation, "Travel Time" as defined below in subsection 5 of this Section 9.B.1 under this Contract:

If, at any time during this Contract, Contractor contributes less than \$1.14 per hour towards the provision of bona fide health care benefits, Contractor shall be required to pay its employees the higher hourly living wage rate.
2. For purposes of this Section, "Contractor" includes any subcontractor engaged by Contractor to perform services for the County under this Contract. If Contractor uses any subcontractor to perform services for the County under this Contract, the subcontractor shall be subject to the provisions of this Section. The provisions of this Section shall be inserted into any such subcontract agreement and a copy of the Living Wage Program shall be attached to the agreement. "Employee" means any individual who is an employee of Contractor under the laws of California, and who is providing full-time services to Contractor, some or all of which

If Contractor is not required to pay a living wage when this Contract commences, Contractor shall have a continuing obligation to review the applicability of its "exemption status" from the living wage requirement, and Contractor shall immediately notify County if Contractor at any time either comes within the Living Wage Program's definition of "Employer" or if Contractor no longer qualifies for an exception to the Living Wage Program. In either event, Contractor shall immediately be required to commence paying the living wage and shall be obligated to pay the living wage for the remaining term of this Contract, including any option period. The County may also require, at any time during this Contract and at its sole discretion, that Contractor demonstrate to the County's satisfaction that Contractor either continues to remain outside of the Living Wage Program's definition of "Employer" and/or that Contractor continues to qualify for an exception to the Living Wage Program. Unless Contractor satisfies this requirement within the time frame permitted by the County, Contractor shall immediately be required to pay the living wage for the remaining term of this Contract, including any option period.
5. For purposes of the Contractor's obligation to pay its Employees the applicable hourly living wage rate under this Contract, "Travel Time" shall have the following two meanings, as applicable: 1) with respect to travel by an Employee that is undertaken in connection with this Contract, Travel Time shall mean any period during which an Employee physically travels to or from a County facility if the Contractor pays the Employee any amount for that time or if California law requires the Contractor to pay the Employee any amount for that time; and 2) with respect to travel by an Employee between County facilities that are subject to two different contracts between the Contractor and the County (of which both contracts are subject to the Living Wage Program), Travel Time shall mean any period during which an Employee physically travels to or from, or between such County facilities if the Contractor pays the Employee any amount for that time or if California law requires the Contractor to pay the Employee any amount for that time.

The certified monitoring reports shall also state the name and identification number of Contractor's current health care benefits plan, and Contractor's portion of the premiums paid as well as the portion paid by each Employee. All certified monitoring reports shall be submitted on forms provided by the County, or any other form approved by the County which contains the above information. The County reserves the right to request any additional information it may deem necessary. If the County requests additional information, Contractor shall promptly provide such information. Contractor, through one of its officers, shall certify under penalty of perjury that the information contained in each certified monitoring report is true and accurate.

D. Contractor's Ongoing Obligation to Report Labor Law/Payroll Violations and Claims

During the term of this Contract, if the Contractor becomes aware of any labor law/payroll violations or any complaint, investigation, or proceeding ("claim") concerning any alleged labor law/payroll violation (including, but not limited to, any violation or claim pertaining to wages, hours, and working conditions such as minimum wage, prevailing wage, living wage, the Fair Labor Standards Act, employment of minors, or unlawful employment discrimination), the Contractor shall immediately inform the County of any pertinent facts known by the Contractor regarding the same. This disclosure obligation is not limited to any labor law/payroll violation or claim arising out of the Contractor's contract with the County, but instead applies to any labor law/payroll violation or claim arising out of any of the Contractor's operation in California.

E. County Auditing of Contractor Records

1. Upon a minimum of 24 hours' written notice, the County may audit, at Contractor's place of business, any of Contractor's records pertaining to this Contract, including all documents and information relating to the certified monitoring reports.
2. Contractor is required to maintain all such records in California until the expiration of four years from the date of final payment under this Contract. Authorized agents of the County shall have access to all such records during normal business hours for the entire period that records are to be maintained.

F. Notifications to Employees

Contractor shall place County-provided living wage posters at each of Contractor's place of business and locations where Contractor's Employees are working. Contractor shall also distribute County-provided notices to each of its Employees at least once per year. Contractor shall translate into Spanish and any other language spoken by a significant number of Employees the posters and handouts.

G. Enforcement and Remedies

1. If Contractor fails to comply with the requirements of this Section, the County shall have the rights and remedies described in this Section in addition to any rights and remedies provided by law or equity.
2. Remedies for Submission of Late or Incomplete Certified Monitoring Reports: If Contractor submits a certified monitoring report to the County after the date it is due, or if the report submitted does not contain all of the required information, is inaccurate, or is not properly certified, any such deficiency shall constitute a breach of this Contract. In the event of any such breach, the County may, in its sole discretion, exercise any or all of the following rights/remedies:
 - a. Withholding of Payment: If Contractor fails to submit accurate, complete, timely, and properly certified monitoring reports, the County may withhold from payment to Contractor up to the full amount of any invoice that would otherwise be due, until Contractor has satisfied the concerns of the County, which may include required submittal of revised certified monitoring reports or additional supporting documentation.
 - b. Liquidated Damages: It is mutually understood and agreed that Contractor's failure to submit an accurate, complete, timely, and properly certified monitoring report will result in damages being sustained by the County. It is also understood and agreed that the nature and amount of the damages will be extremely difficult and impractical to fix; that the liquidated damages set forth herein are the nearest and most exact measure of damages for such breach that can be fixed at this time; and the liquidated damages are not intended as a penalty or forfeiture for Contractor's breach. Therefore, in the event that a certified monitoring report is deficient, including, but not limited to, being late, inaccurate, incomplete, or uncertified, it is agreed that the County may, in its sole discretion, assess against Contractor liquidated damages in the amount of \$100 per monitoring report for each day until the County has been provided with a properly prepared, complete, and certified monitoring report. The County may deduct any assessed liquidated damages from any payments otherwise due to Contractor.

- c. Termination: Contractor's failure to submit an accurate, complete, timely, and properly certified monitoring report may constitute a material breach of this Contract. In the event of such material breach, County may, in its sole discretion, terminate this Contract.
- 3. Remedies for Payment of Less Than the Required Living Wage: If Contractor fails to pay any Employee at least the applicable hourly living wage rate, such deficiency shall constitute a breach of this Contract. In the event of any such breach, the County may, in its sole discretion, exercise any or all of the following rights/remedies:
 - a. Withholding of Payment: If Contractor fails to pay one or more of its Employees at least the applicable hourly living wage rate, the County may withhold from any payment otherwise due to Contractor the aggregate difference between the living wage amounts Contractor was required to pay its Employees for a given pay period and the amount actually paid to the Employees for that pay period. The County may withhold said amount until Contractor has satisfied the County that any underpayment has been cured, which may include required submittal of revised certified monitoring reports or additional supporting documentation.
 - b. Liquidated Damages: It is mutually understood and agreed that Contractor's failure to pay any of its Employees at least the applicable hourly living wage rate will result in damages being sustained by the County. It is also understood and agreed that the nature and amount of the damages will be extremely difficult and impractical to fix; the liquidated damages set forth herein are the nearest and most exact measure of damages for such breach that can be fixed at this time. The liquidated damages are not intended as a penalty or forfeiture for Contractor's breach. Therefore, it is agreed that the County may, in its sole discretion, assess against Contractor liquidated damages of \$50 per Employee per day for each and every instance of an underpayment to an Employee. The County may deduct any assessed liquidated damages from any payments otherwise due to Contractor.
 - c. Termination: Contractor's failure to pay any of its Employees the applicable hourly living wage rate may constitute a material breach of this Contract. In the event of such material breach, County may, in its sole discretion, terminate this Contract.
- 4. Debarment: In the event Contractor breaches a requirement of this Section, the County may, in its sole discretion, bar Contractor from the award of future County contracts for a period of time consistent with the seriousness of the breach, not to exceed three years.

H. Use of Full-Time Employees

Contractor shall assign and use full-time employees of Contractor to provide services under this Contract unless Contractor can demonstrate to the satisfaction of the County that it is necessary to use non-full-time employees based on staffing efficiency or County requirements for the work to be performed under this Contract. It is understood and agreed that Contractor shall not, under any circumstance, use non-full-time employees for services provided under this Contract unless and until the County has provided written authorization for the use of same. Contractor submitted with its proposal a full-time employee staffing plan. If Contractor changes its full-time employee staffing plan, Contractor shall immediately provide a copy of the new staffing plan to the County.

I. Contractor Retaliation Prohibited

Contractor and/or its employees shall not take any adverse action which would result in the loss of any benefit of employment, any contract benefit, or any statutory benefit for any employee, person, or entity who has reported a violation of the Living Wage Program to the County or to any other public or private agency, entity, or person. A violation of the provisions of this paragraph may constitute a material breach of this Contract. In the event of such material breach, County may, in its sole discretion, terminate this Contract.

J. Contractor Standards

During the term of the Contract, Contractor shall maintain business stability, integrity in employee relations, and the financial ability to pay a living wage to its employees. If requested to do so by the County, Contractor shall demonstrate to the satisfaction of the County that Contractor is complying with this requirement.

K. Neutrality in Labor Relations

Contractor shall not use any consideration received under this Contract to hinder, or to further, organization of, or collective bargaining activities by or on behalf of Contractor's employees, except that this restriction shall not apply to any expenditure made in the course of good faith collective bargaining, or to any expenditure pursuant to obligations incurred under a bona fide collective bargaining agreement, or which would otherwise be permitted under the provisions of the National Labor Relations Act.

**Department of the Treasury
Internal Revenue Service
Notice 1015**

(Rev. December 2005)

**Have You Told Your Employees About the
Earned Income Credit (EIC)?**

What Is the EIC?

The EIC is a refundable tax credit for certain workers.

Which Employees Must I Notify About the EIC?

You must notify each employee who worked for you at any time during the year and from whom you did not withhold income tax. However, you do not have to notify any employee who claimed exemption from withholding on Form W-4, Employee's Withholding Allowance Certificate.

Note: *You are encouraged to notify each employee whose wages for 2005 are less than \$37,263 that he or she may be eligible for the EIC.*

How and When Must I Notify My Employees?

You must give the employee one of the following:

- The IRS Form W-2, Wage and Tax Statement, which has the required information about the EIC on the back of Copy B.
- A substitute Form W-2 with the same EIC information on the back of the employee's copy that is on Copy B of the IRS Form W-2.
- Notice 797, Possible Federal Tax Refund Due to the Earned Income Credit (EIC).
- Your written statement with the same wording as Notice 797.

If you are required to give Form W-2 and do so on time, no further notice is necessary if the Form W-2 has the required information about the EIC on the back of the employee's copy. If a substitute Form W-2 is given on time but does not have the required information, you must notify the employee within 1 week of the date the substitute Form W-2 is given. If Form W-2 is required but is not given on time, you must give the employee Notice 797 or your written statement by the date Form W-2 is required to be given. If Form W-2 is not required, you must notify the employee by February 7, 2006.

You must hand the notice directly to the employee or send it by First-Class Mail to the employee's last known address. You will not meet the notification requirements by posting Notice 797 on an employee bulletin board or sending it through office mail. However, you may want to post the notice to help inform all employees of the EIC. You can get copies of the notice by calling 1-800-829-3676, or from the IRS website at www.irs.gov.

**How Will My Employees Know If They Can
Claim the EIC?**

The basic requirements are covered in Notice 797. For more detailed information, the employee needs to see the 2005 instructions for Form 1040, 1040A, 1040EZ, or Pub. 596, Earned Income Credit (EIC).

How Do My Employees Claim the EIC?

Eligible employees claim the EIC on their 2005 tax return. Even employees who have no tax withheld from their pay or owe no tax can claim the EIC and get a refund, but they must file a tax return to do so. For example, if an employee has no tax withheld in 2005 and owes no tax but is eligible for a credit of \$799, he or she must file a 2005 tax return to get the \$799 refund.

**How Do My Employees Get Advance EIC
Payments?**

Eligible employees who expect to have a qualifying child for 2006 can get part of the credit with their pay during the year by giving you a completed Form W-5, Earned Income Credit Advance Payment Certificate. You must include advance EIC payments with wages paid to these employees, but the payments are not wages and are not subject to payroll taxes. Generally, the payments are made from withheld income, social security, and Medicare taxes. For details, see Pub. 15 (Circular E), Employer's Tax Guide.

What is the Safely Surrendered Baby Law?

California's Safely Surrendered Baby Law allows parents to give up their baby confidentially. As long as the baby has not been abused or neglected, parents may give up their newborn without fear of arrest or prosecution.

How does it work?

A distressed parent who is unable or unwilling to care for a baby can legally, confidentially and safely give up a baby within three days of birth. The baby must be handed to an employee at a Los Angeles County emergency room or fire station. As long as the child shows no signs of abuse or neglect, no name or other information is required. In case the parent changes his or her mind at a later date and wants the baby back, workers will use bracelets to help connect them to each other. One bracelet will be placed on the baby, and a matching bracelet will be given to the parent.

What if a parent wants the baby back?

Parents who change their minds can begin the process of reclaiming their newborns within 14 days. These parents should call the Los Angeles County Department of Children and Family Services at 1-800-540-4000.

Can only a parent bring in the baby?

In most cases, a parent will bring in the baby. The law allows other people to bring in the baby if they have legal custody.

Does the parent have to call before bringing in the baby?

No. A parent can bring in a baby anytime, 24 hours a day, 7 days a week so long as the parent gives the baby to someone who works at the hospital or fire station.

Does a parent have to tell anything to the people taking the baby?

No. However, hospital personnel will ask the parent to fill out a questionnaire designed to gather important medical history information, which is very useful in caring for the child. Although encouraged, filling out the questionnaire is not required.

What happens to the baby?

The baby will be examined and given medical treatment, if needed. Then the baby will be placed in a pre-adoptive home.

What happens to the parent?

Once the parent(s) has safely turned over the baby, they are free to go.

Why is California doing this?

The purpose of the Safely Surrendered Baby Law is to protect babies from being abandoned by their parents and potentially being hurt or killed. You may have heard tragic stories of babies left in dumpsters or public bathrooms. The parents who committed these acts may have been under severe emotional distress. The mothers may have hidden their pregnancies, fearful of what would happen if their families found out. Because they were afraid and had nowhere to turn for help, they abandoned their infants. Abandoning a baby puts the child in extreme danger. It is also illegal. Too often, it results in the baby's death. Because of the Safely Surrendered Baby Law, this tragedy doesn't ever have to happen in California again.

A baby's story

At 8:30 a.m. on Thursday, July 25, 2002, a healthy newborn baby was brought to St. Bernardine Medical Center in San Bernardino under the provisions of the California Safely Surrendered Baby Law. As the law states, the baby's mother did not have to identify herself. When the baby was brought to the emergency room, he was examined by a pediatrician, who determined that the baby was healthy and doing fine. He was placed with a loving family while the adoption process was started.

Every baby deserves a chance for a healthy life. If someone you know is considering abandoning a newborn, let her know there are other options.

It is best that women seek help to receive proper medical care and counseling while they are pregnant. But at the same time, we want to assure parents who choose not to keep their baby that they will not go to jail if they deliver their babies to safe hands in any Los Angeles County hospital ER or fire station.

Sin pena. Sin culpa. Sin peligro.

¿Qué es la Ley de Entrega de Bebés Sin Peligro?

La Ley de Entrega de Bebés Sin Peligro de California permite a los padres entregar a su recién nacido confidencialmente. Siempre que el bebé no haya sufrido abuso ni negligencia, padres pueden entregar a su recién nacido sin temor a ser arrestados o procesados.

¿Cómo funciona?

El padre/madre con dificultades que no pueda o no quiera cuidar de su recién nacido puede entregarlo en forma legal, confidencial y segura, dentro de los tres días del nacimiento. El bebé debe ser entregado a un empleado de una sala de emergencias o de un cuartel de bomberos del Condado de Los Angeles. Siempre que el bebé no presente signos de abuso o negligencia, no será necesario suministrar nombres ni información alguna. Si el padre/madre cambia de opinión posteriormente y desea recuperar a su bebé, los trabajadores utilizarán brazaletes para poder vincularlos. El bebé llevará un brazalete y el padre/madre recibirá un brazalete igual.

¿Qué pasa si el padre/madre desea recuperar a su bebé?

Los padres que cambien de opinión pueden empezar el proceso de reclamar a su recién nacido dentro de los 14 días. Estos padres deberán llamar al Departamento de Servicios para Niños y Familias (Department of Children and Family Services) del Condado de Los Angeles, al 1-800-540-4000.

¿Sólo los padres podrán llevar al recién nacido?

En la mayoría de los casos, los padres son los que llevan al bebé. La ley permite que otras personas lleven al bebé si tienen la custodia legal del menor.

¿Los padres deben llamar antes de llevar al bebé?

No. El padre/madre puede llevar a su bebé en cualquier momento, las 24 horas del día, los 7 días de la semana, mientras que entregue a su bebé a un empleado del hospital o de un cuartel de bomberos.

¿Es necesario que el padre/madre diga algo a las personas que reciben al bebé?

No. Sin embargo, el personal del hospital le pedirá que llene un cuestionario con la finalidad de recabar antecedentes médicos importantes, que resultan de gran utilidad para los cuidados que recibirá el bebé. Es recomendado llenar este cuestionario, pero no es obligatorio hacerlo.

¿Qué ocurrirá con el bebé?

El bebé será examinado y, de ser necesario, recibirá tratamiento médico. Luego el bebé se entregará a un hogar preadoptivo.

¿Qué pasará con el padre/madre?

Una vez que los padres hayan entregado a su bebé en forma segura, serán libres de irse.

¿Por qué California hace esto?

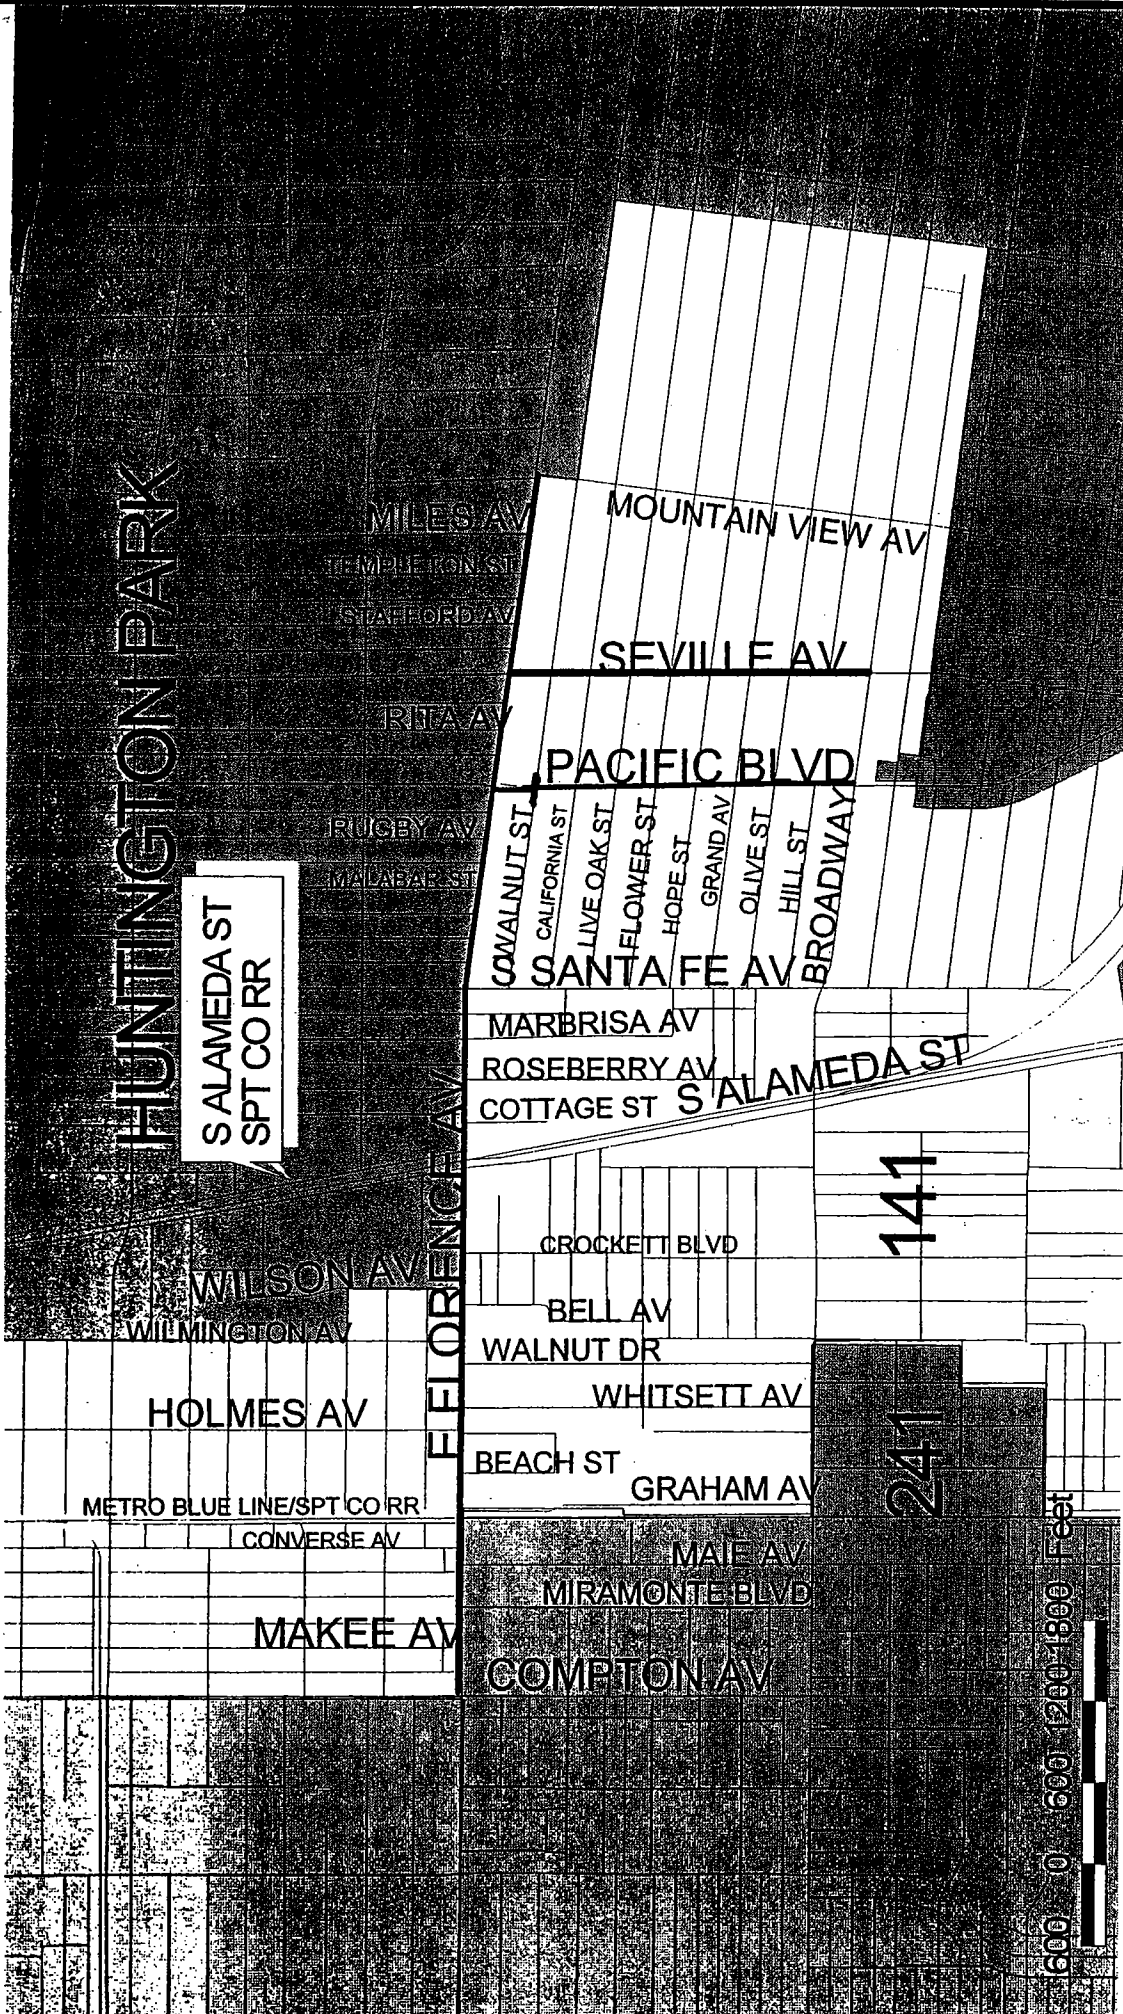

La finalidad de la Ley de Entrega de Bebés Sin Peligro es proteger a los bebés del abandono por parte de sus padres y de la posibilidad de que mueran o sufran daños. Usted probablemente haya escuchado historias trágicas sobre bebés abandonados en basureros o en baños públicos. Es posible que los padres que cometieron estos actos hayan estado atravesando dificultades emocionales graves. Las madres pueden haber ocultado su embarazo, por temor a lo que pasaría si sus familias se enteraran. Abandonaron a sus recién nacidos porque tenían miedo y no tenían adonde recurrir para obtener ayuda. El abandono de un recién nacido lo pone en una situación de peligro extremo. Además es ilegal. Muy a menudo el abandono provoca la muerte del bebé. Ahora, gracias a la Ley de Entrega de Bebés Sin Peligro, esta tragedia ya no debe suceder nunca más en California.

Historia de un bebé

A las 8:30 a.m. del jueves 25 de julio de 2002, se entregó un bebé recién nacido saludable en el St. Bernardine Medical Center en San Bernardino, en virtud de las disposiciones de la Ley de Entrega de Bebés Sin Peligro. Como lo establece la ley, la madre del bebé no se tuvo que identificar. Cuando el bebé llegó a la sala de emergencias, un pediatra lo revisó y determinó que el bebé estaba saludable y no tenía problemas. El bebé fue ubicado con una buena familia, mientras se iniciaban los trámites de adopción.

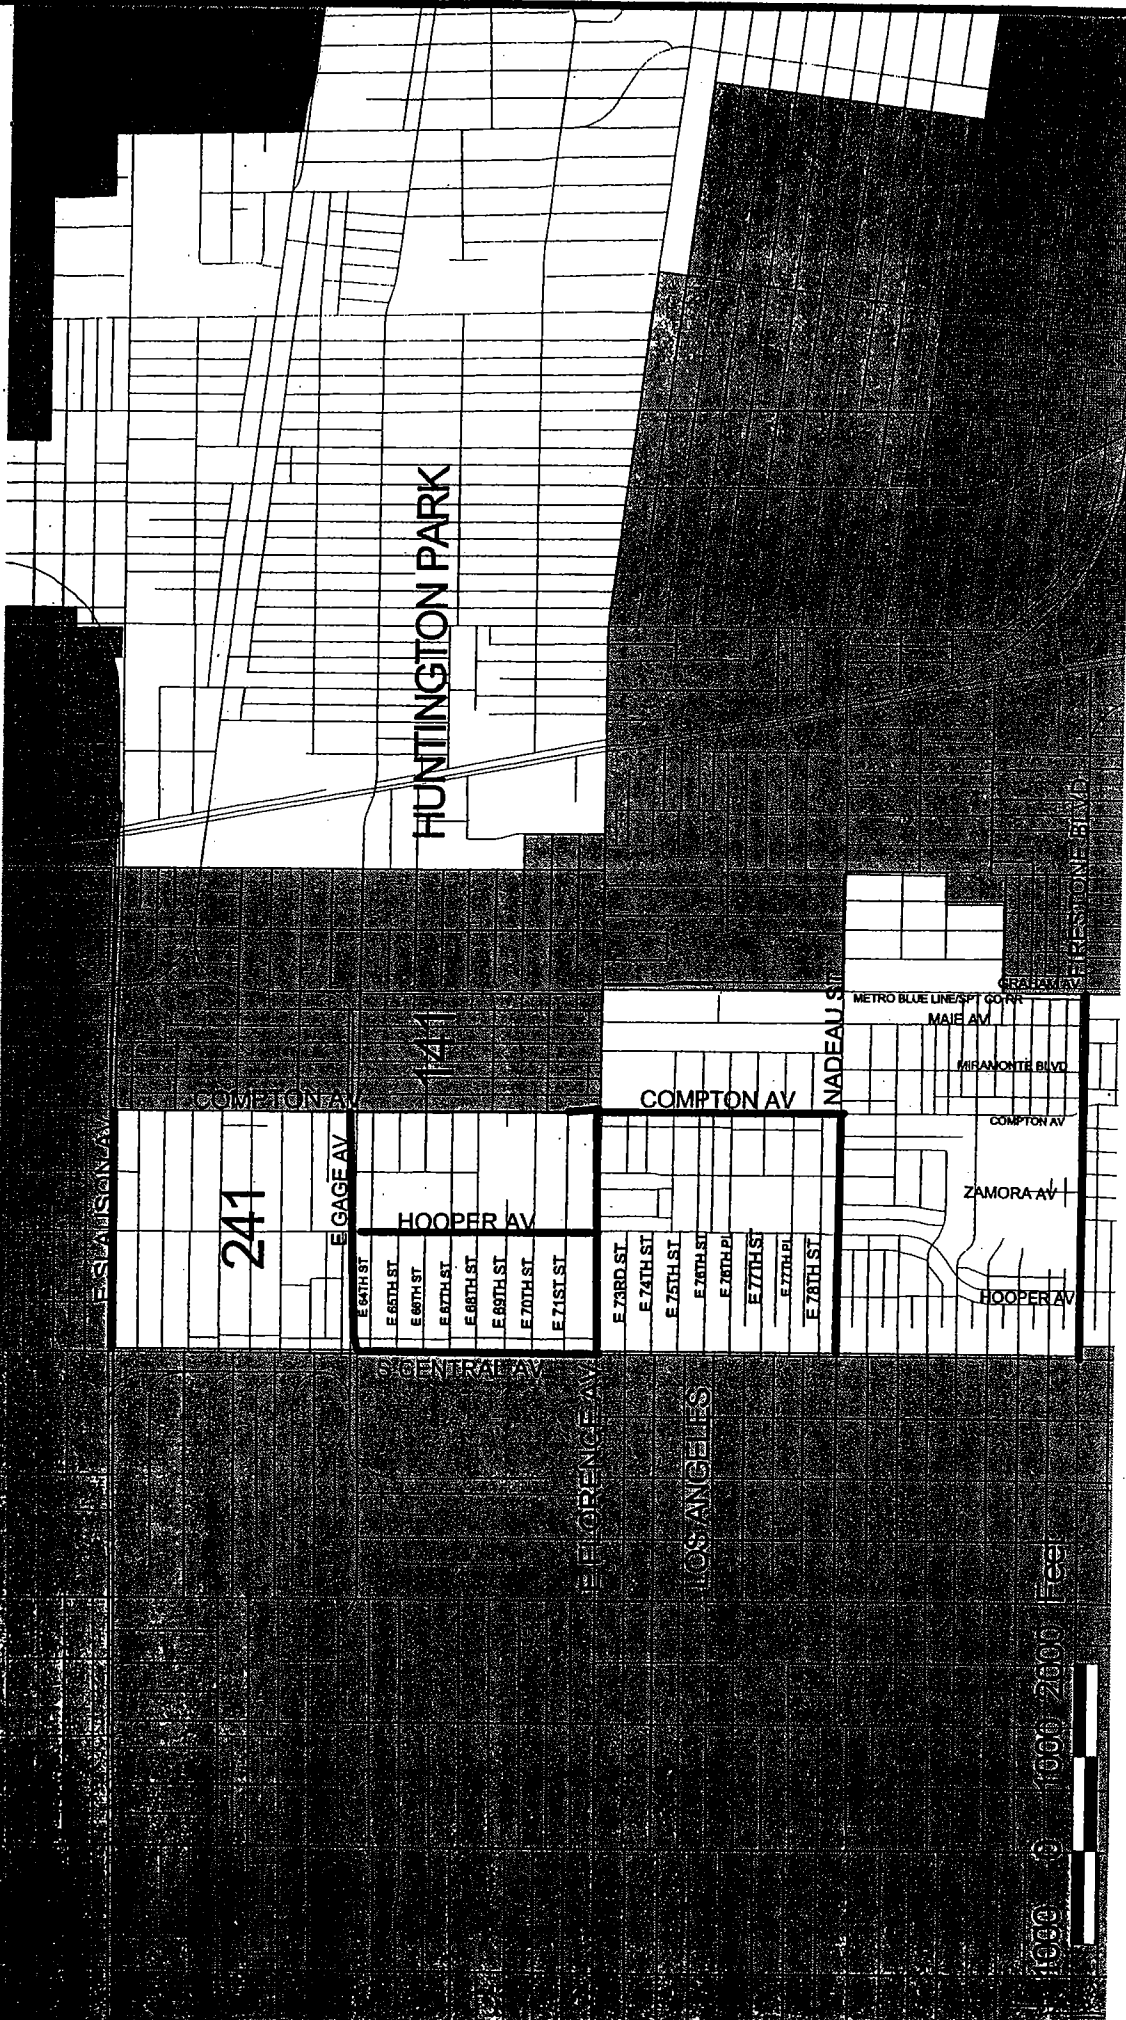

Cada recién nacido merece una oportunidad de tener una vida saludable. Si alguien que usted conoce está pensando en abandonar a un recién nacido, infórmele qué otras opciones tiene.

Es mejor que las mujeres busquen ayuda para recibir atención médica y asesoramiento adecuado durante el embarazo. Pero al mismo tiempo, queremos asegurarles a los padres que optan por no quedarse con su bebé que no irán a la cárcel si dejan a sus bebés en buenas manos en cualquier sala de emergencia de un hospital o en un cuartel de bomberos del Condado de Los Angeles.

NARRATIVE

Attached is our response to your Request For Proposal (RFP) for providing comprehensive neighborhood enhancement services for the Florence/Firestone Area within the County of Los Angeles.

We believe we are uniquely qualified to provide these services for the County. Beginning in the mid seventies, our Company was the leader in Sidewalk Maintenance Programs under the auspices of the City of Los Angeles. Since that time, we have established an unparalleled record of maintaining clean neighborhoods throughout California, and parts of Texas and Nevada, for both the public and private sectors.

In addition to servicing the particular needs and demands of hundreds of business clients, we devised and implemented a comprehensive graffiti control program for frequently vandalized underpasses in the City of Los Angeles, and then brought that program to the entire City of National City, and predefined areas in San Diego. Currently, we maintain a great many city and county properties graffiti free, and have done so for over 30 years.

Having just celebrated our 30th Anniversary, I am proud to have brought a great many "firsts" to the service industry: Our firm was first in utilizing reclaimed water for a city program in Reseda. Hydro Pressure Systems was first to integrate services such as trash collection, tree trimming, sidewalk maintenance and graffiti removal under one umbrella. Hydro Pressure Systems designed and engineered contract specific equipment to better perform the required services in a cost-efficient manner, a standard presently adopted by all other maintenance firms.

Hydro Pressure Systems has always been proud of its ability to offer and demand exceptional service from its staff. In-service training, incentives, above the standard pay scale and a working environment that fosters pride and responsibility; these are the hallmarks of a successful company, one that will endure another 30 years.

We feel that not only is our pricing competitive, but our staff, experience, professionalism and equipment can provide the County with the best in a fully integrated maintenance program. Our firm does not OUTSOURCE any of its work to subcontractors or act as a collection resource for other companies to perform the maintenance tasks. As the current contractor on this program, as well as the contractor on an identical program in Whittier for the previously 9 years, we have more experience than any other firm, and are intimately aware of the needs of this community. As the largest and oldest licensed pressure washing contractor in the state, Hydro Pressure Systems can set the bar high and exceed all expectations. We would look forward to answering any questions the Evaluation Committee may have.

COMPANY BACKGROUND

Woods Maintenance Services, Inc., started out under its original corporate name of D & B Maintenance Service, Inc., as a janitorial maintenance contractor in 1975, reorganizing under its current name in 1997. In the beginning, our emphasis was on the daily and nightly maintenance of apartment buildings, condominiums, industrial parks and office buildings, with a minor workload of graffiti removal on their exterior facades.

In 1976 the company grew to include landscape maintenance and became licensed to perform high pressure washing and steam cleaning work for hard surfaces, as well as masonry cleaning. It was at this time, while we were members of the Chamber of Commerce that we helped to develop the Westwood Village Sidewalk Maintenance District, a program funded through property owners' taxes to clean and maintain specific business districts.

As graffiti increased throughout the city (and country) a new division, Graffiti Control Systems, was formed to specifically address this out of control problem. Through trial and error and a great deal of research and beta testing, Graffiti Control Systems, became the first graffiti abatement contractor in the nation to utilize portable spectrophotometers in the field to computer color match paint, thereby setting a new standard for quality and timeliness.

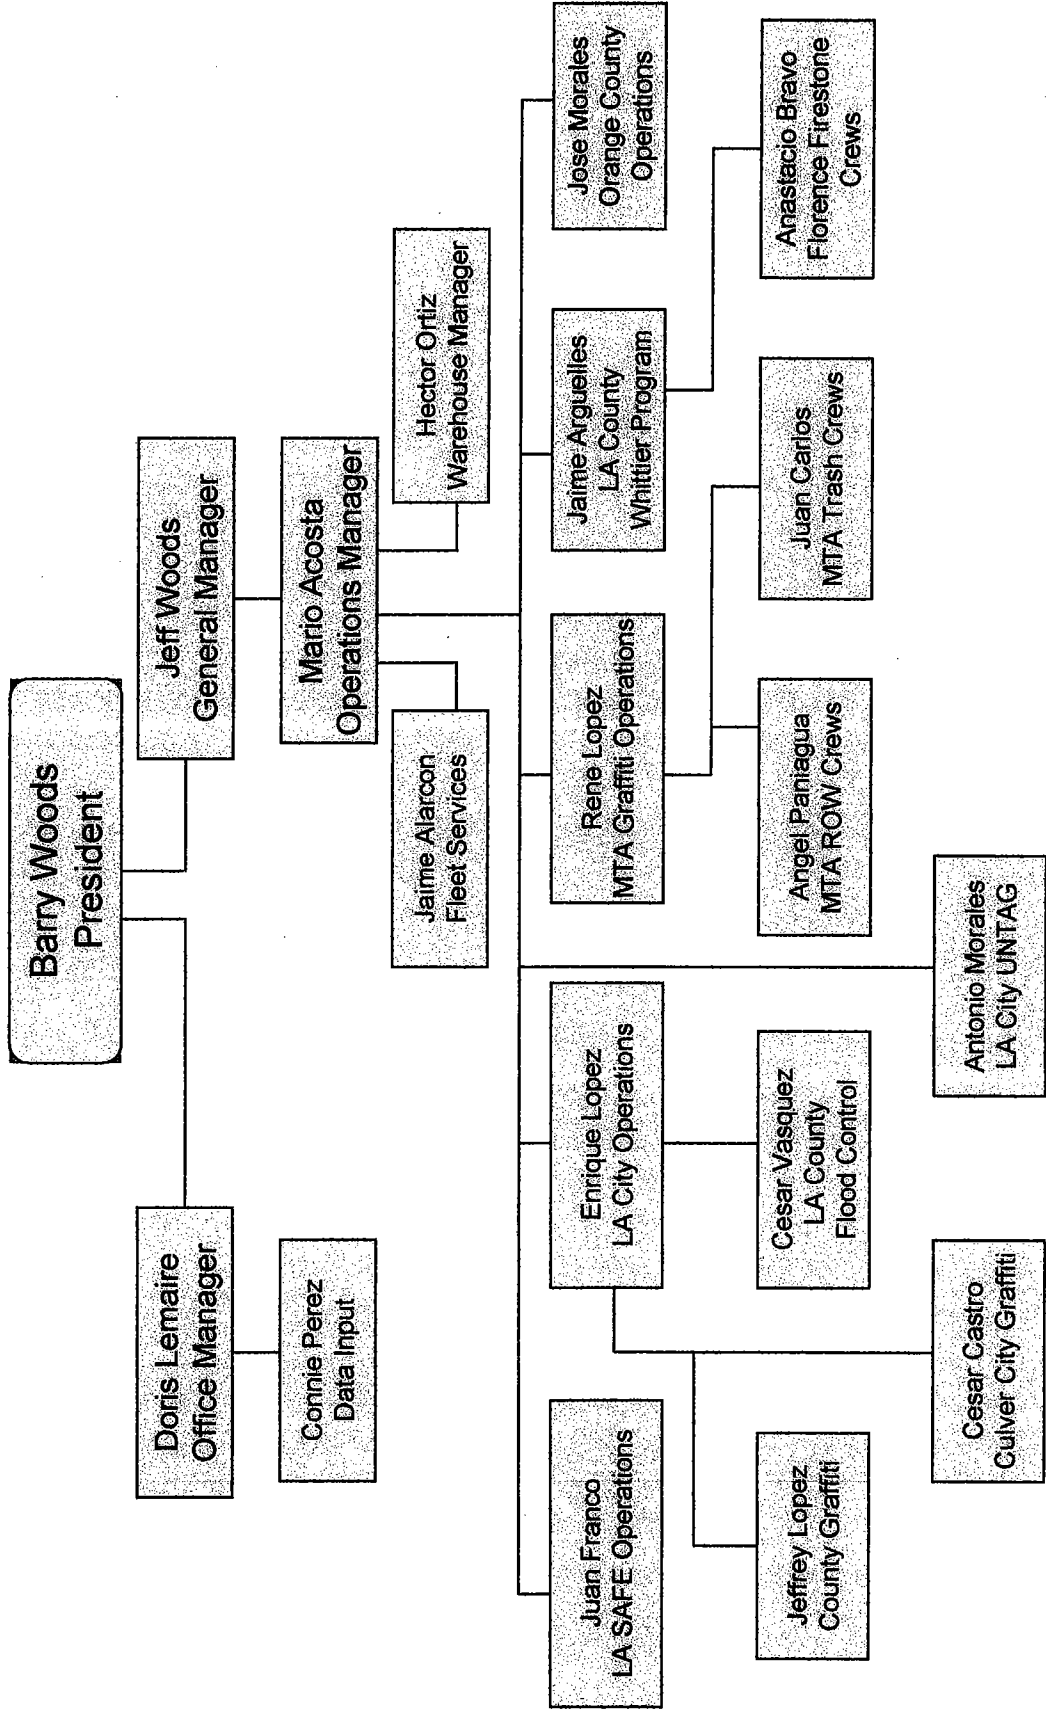

Graffiti Control Systems' sister company, **Hydro Pressure Systems**, is the largest licensed pressure washing contractor in the state, and for over 30 years has been performing all manner of exterior maintenance for both public and private sector clients throughout California.

Hydro Pressure Systems presently has multiple contracts with the City of Los Angeles to perform nightly maintenance services in widespread areas of the city. Under the auspices of the Street Maintenance Department within the Board of Public Works, HPS has swept and washed the sidewalks in Westwood Village, Van Nuys Boulevard in Van Nuys and Main and Spring Streets in downtown Los Angeles. In addition to recovering trash, debris and litter, we were responsible for emptying all street-side trash receptacles and replacing the liners on a daily basis, as well as removing graffiti from public property. Eight years ago, HPS was awarded and has been performing under a County contract for the Whittier Boulevard Enhancement Program, whereby all graffiti is abated, trash receptacles emptied, trash, weeds and debris removed and sidewalks and gutters cleaned on a daily basis. Previously, we have held multi-year contracts for the Hollywood Boulevard Walk of Fame, Reseda Boulevard, Fairfax Avenue, Broadway BID and Ventura Boulevard in Sherman Oaks. We were chosen as the contractor to perform the high pressure washing services/graffiti abatement protocols required for the Cities of Coronado, Palm Springs, Whittier and West Hollywood.

At present, Woods Maintenance Services is under contract with the cities of Los Angeles, Culver City, Santa Clarita, Diamond Bar, Tustin and South Pasadena, as well as Los Angeles and Orange Counties. As sole source contractor for the MTA, and OCTA, we are charged with keeping all of the transit properties free of weed, trash and debris throughout the counties.

Office Buildings, industrial parks, individual businesses and homeowners rely on us daily to respond to their needs and restore their property to a pristine condition. We have just recently been awarded a special contract with the City of Los Angeles to supply 5 fully equipped crews to assist the other CBO contractors who are falling behind in their removals, and are dispatched weekly to different parts of the city. Whether it is graffiti or weed, trash and debris removal, cleanliness is a highly charged subject. The public's first perception of a facility, business or city is based on its initial and continuing awareness of how clean that area appears. If it is neglected, it encourages more abuse and fosters the broken window syndrome. Woods Maintenance Services, Inc., excels in immediate and professional response to any disruption to the cleanliness of the facilities it is charged with maintaining. And so it shall be with the county zero tolerance districts.

PRIOR EXPERIENCE

Having been in business continuously since 1975, and having been awarded and performing under hundreds of contracts during this time, it is difficult to list all of those within a specified time frame. The following is by no means a comprehensive list, but rather a sampling of the manner of work that we have performed over the years. Because of the voluminous nature of the list, individual contract rates have not been indicated. In almost all cases, the contracts ran from a low of \$50,000 to a high of \$850,000, with the majority being in the \$200,000 to \$500,000 range. Should more exacting figures be required, we will be happy to provide them.

In all of the aforementioned contract jobs, Woods Maintenance Services, Inc., acted as the Prime Contractor, with the awarding agency or body, without the use of subcontractors.

In 1976 we were instrumental in helping to develop the Sidewalk Maintenance Program for Westwood, and since that time, through city agencies, have advised on expanded and revised specifications for these manner of projects, to accomplish new sets of goals. We developed the Pilot Graffiti Removal Program for the City of National City, and have written the specifications for such cities as Culver City, San Diego and Los Angeles.

There are no other contractors or business concerns that can touch or match our depth and breadth of experience. Designing, creating and implementing programs for agencies and municipal bodies are areas within our expertise. Evaluating the exterior maintenance needs of a department, setting, realistic but ambitious goals for improvement, implementing improved methodologies to accomplish these goals...this is what we do best.

GENERAL WORK PLAN

With the continuation of the **FLORENCE – FIRESTONE ENAHANCEMENT PROGRAM** in the County of Los Angeles, the County recognizes the need to continue this vital service to a vibrant business community. To this end, **HYDRO PRESSURE SYSTEMS** would continue its current work plan to maintain the areas in a state of cleanliness and to offer concentrated, speedy and consistent service through the balance of the contract term. Since Hydro Pressure Systems currently has the contract in this area, we are well acquainted with the specific needs, problems and idiosyncrasies, and can quickly address them.

INITIAL PROTOCOLS

As the current Contractor in the area, there will no need to “ramp” up to bring the areas into a clean or acceptable standard. Our trained crews and specialized equipment will continue their daily routine per the contract specifications, making any adjustments for the slight changes in boundaries and district limits.

CONTRACT WIDE PROTOCOLS

Two separate crews with specially designed equipment and 3 pressure washers will begin their day by dispatching from our offices at approximately 5:30 am each morning. As they arrive on the site(s) they will proceed to walk the limits, recovering all trash and debris, depositing it in our rolling Brute containers for transport back to our offices and a roll off dumpster.

After the area has been cleaned of loose debris, the pressure washing will start. Washing is performed starting from the building side in proceeding towards the gutter. In this manner, minimal water will affect the property owner's windows and doors, and the minimal water generated will go into the gutter.

Gum removal will be performed by the same crews on a rotating daily basis, so that all areas within the limits are attended to each week. Should additional gum appear earlier, the crews have an additional pressure washer on site daily to manage this aspect.

Following the sweeping, trash recovery, pressure washing and gum removal, the crews will bring all trash to the office for disposal, returning at approximately 2:30 pm each day.

Methods & Techniques – Work Location 1

Remove litter, trash, weeds, etc., from sidewalks, curbs, gutters and planters	Along entire service limits, with exception of Pacific Boulevard, and Seville Avenue, which will only include bus shelters and trash receptacles	Work will be performed Monday through Friday
Remove gum and grime on sidewalk through pressure washing	All areas within the confines of Work location 1	Work to be performed a minimum of once weekly.

Methods & Techniques – Work Location 2

Remove litter, trash, weeds, etc., from sidewalks, curbs, gutters and planters	Along the entire service limits as outlined on Work Location 2 map, Thomas Guide pages 674-675, 704-705	Work will be performed Monday through Friday
Remove gum and grime on sidewalk through pressure washing	All areas within the confines of Work location 2	Work to be performed a minimum of once weekly.

SAFETY PROCEDURES

The safety and well being of all Contractors' employees and the citizens in general are our primary concern. All work undertaken conforms to all rules, regulations, ordinances and statutes of the City, County, State and Federal Governmental offices. All proper traffic control methods are utilized, as required on the public right-of-way, with flashing arrow boards, cones and barricades. The concern is also for the public at large, as we will be working closely with the property owners to see that their businesses are not disrupted. **HYDRO PRESSURE SYSTEMS** has already developed, had approved, and has a working module of the Safety Program as mandated by SB 198, which is available for review by any city agency. All vehicles carry first aid kits, fire extinguishers, MSDS sheets, and BMP protocols for the services we will be performing.

SUBCONTRACTORS

In the performance of the work as outlined throughout this RFP, **HYDRO PRESSURE SYSTEMS** will use no subcontractors. We are, as required by law and the Business and Professions Code, licensed by the Contractors State License Board with a C61, D38 license, active and current. As the largest pressure washing contractor in the nation, we are sufficiently funded with \$4 million in contract work, over 50 late model, specialized vehicles, over 70 bi-lingual Technicians, including 23 supervisors, specialized paint lab and 30 years of experience. This far exceeds even the closest competition, who uses mostly contract labor for all work undertaken.

COMMUNICATION & JOB TRACKING

All work orders and requests for service, whether they are emailed, faxed or called into our office through our 800 line, are imputed by our office support staff. Job orders are written up, imputed into the computer and tracked through the entire process until completion. HPS created the first comprehensive database for entering annotating, searching and retrieving all requests for service, irrespective of the source. These are then compiled into a report sent each month to the Program Manager and Accounting Department. Our billing follows universally accepted protocols for accounting practices. Every employee assigned to County work is separately tracked (as are all staff technicians), so that all contract time and material is properly accounted and imputed. In the very rare instance that an assigned County Technician is sent to a non-county project (special weekend assignment), those hours and costs are never assigned to, or added onto the County Database.

PAYROLL & ACCOUNTING

Hydro Pressure Systems, with a staff three times that of its next nearest competitor, has always sought out the most efficient, cost effective and professional services, products and methodologies in conducting its business as we enter our 4th decade of operation. We conducted an exhaustive search in an effort to secure the very best in payroll services. Anyone, or any firm can add up time cards. We wanted more.

We engaged ADP, the nation's oldest and largest provider of payroll and business services. From the Auto Pay Program we have engaged which allows us access to their database to input hours, wages, deductions; to the use of Avert, the information based business service to get almost instantaneous reports on employees and prospective hires.

Our clients are very important to us, and we make every effort to verify not only the identity and ability of our staff, but to ascertain any criminal or negative reports that may have been overlooked. This, coupled with our DMV Driver Pull Program, assures we are getting the best of the best.

County assigned personnel annotate their hours by signing in on a weekly time sheet. This sheet lists their name, week worked, time arrived at office, time arrived on job, break time, lunch break, time left job site and time arrived back at office. All Supervisors are responsible for collecting the weekly time sheets, verifying the information, signing the bottom along with the employee, verifying the accuracy of the information. These sheets are then manually entered to the self-correcting database for payroll. This is usually completed by Wednesday, and payroll is generated and delivered to our offices on Thursday for the prior weeks work. Holidays are preset, as well as accrued vacation time. For those employees with multiple pay rates, Auto Pay takes that into account and hours, deductions, loans, reimbursement and overtime can be placed in any of the predefined fields, so there is no "accidentally"

shorting an employee. If a holiday falls on a Thursday or Friday, Accounting will generate the payroll one day early.

ADP also provides all Certified Payroll Reports for all of our contracts, so that there is no error or guesswork with employees, correct payroll amounts and deductions. These are submitted monthly to the County with a cover sheet verifying the information signed by the President.

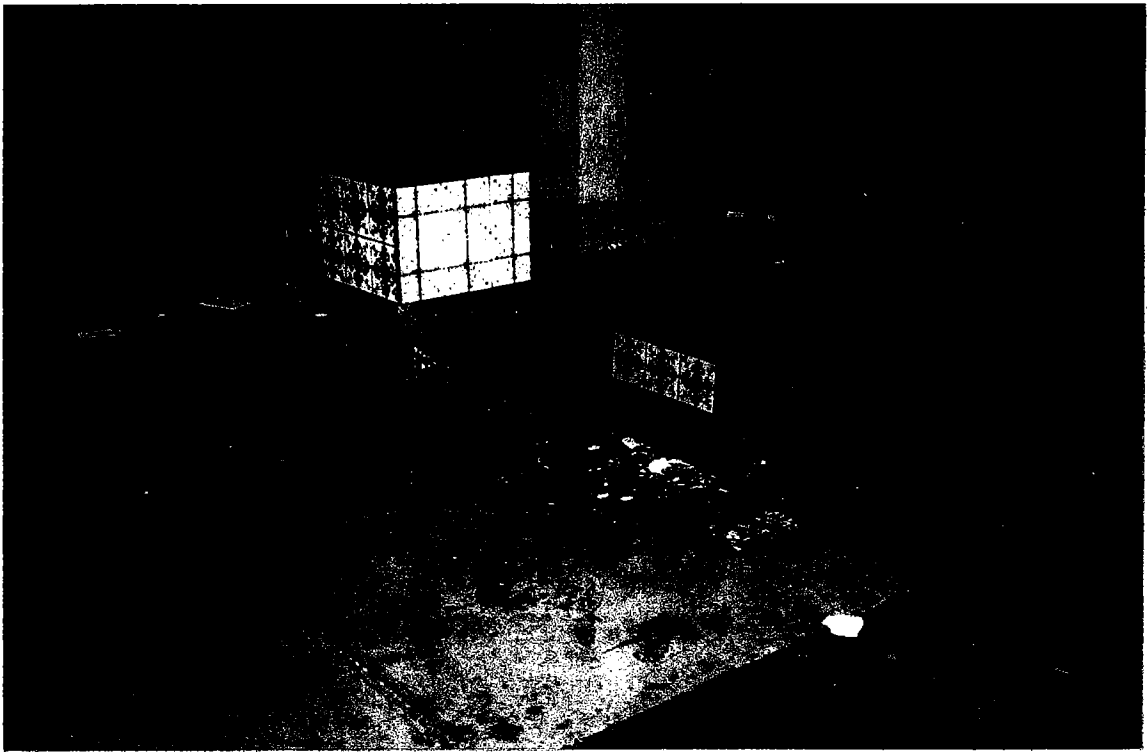

In addition to the "honor" system, HPS has Supervisors out in the field seven days per week. This not only verifies that staff technicians are on the job, doing when they are contracted to do, but allows us the time to do Quality Control. Supervisors are armed with printouts of the prior days (weeks) work and have the opportunity to not only check current jobs, but to verify the completion of previous assignments. When Supervisors cannot make it to a particular site that day, vehicles are equipped with roof mounted Teletrac GPS Systems, that allow us to monitor the exact location of any of the vehicles at any time.

TRAINING PROGRAM

All staff members must attend and pass a comprehensive in-house training program, prior to being qualified for as a Pressure Washing Technician. Prior to beginning work, and immediately after hiring, the personnel record is examined to substantiate all submitted facts and information. A voluntary drug test is administered and forms are signed allowing random drug tests during employment. Driving record is examined for any noticeable failings. Once the preliminary, administrative work is completed, the employee is issued uniforms, gloves, safety goggles, hard hat, safety vest, rubber boots, and Employee Manual, and several guides to equipment and procedures. Some of this is "homework", and must be completed before formal training begins at our offices, and then the job site. The training is usually broken down into six distinct areas, though there may be some overlapping:

- 1) Safety and operating procedures for high pressure washers
- 2) Safety and operating procedures for gas powered spray equipment
- 3) Safe vehicle operating procedures and included emergency/safety equipment
- 4) Graffiti removal techniques on 12 different types of surfaces
- 5) Use of chemicals, reading an MSDS, emergency procedures and BMPs
- 6) Public relations, expected behavior, image and dealing with the public

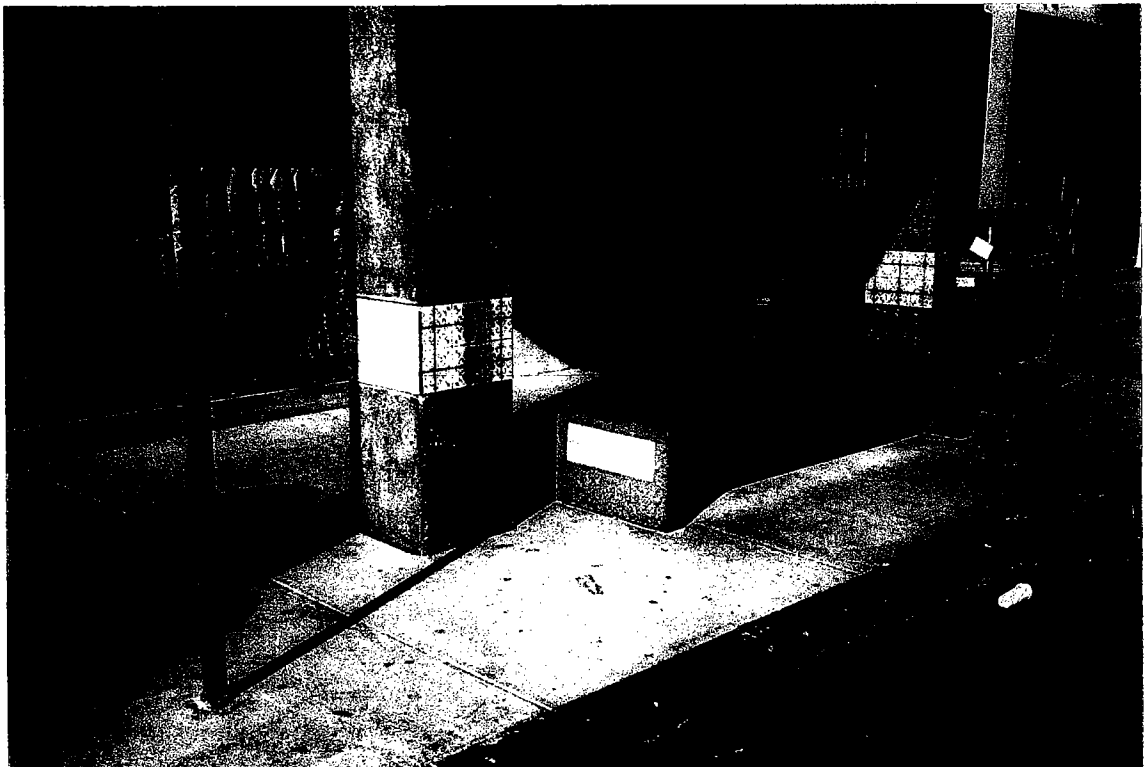

The training process, both in the office with a veteran supervisor and out in the field, takes two weeks, before a new hire is allowed to work solo, but still supervised.

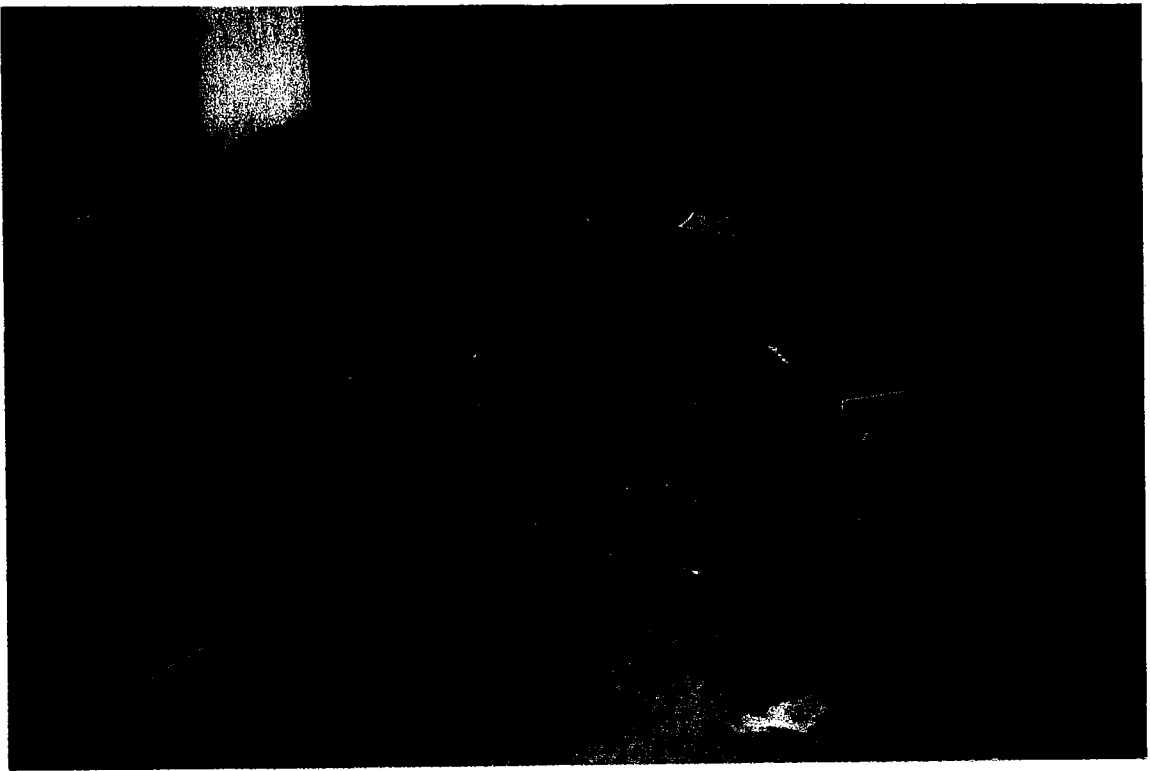

A typical bus stop area prior to Woods Maintenance Service, Inc. taking over the maintenance

A concentrated effort with the right equipment and dedicated personnel again makes the area appealing

Invariably, the dirt and spills would be tracked into merchants stores, further exacerbating the situation

I can't believe I cleaned the whole thing!

**COUNTY OF LOS ANGELES CONTRACTOR EMPLOYEE JURY SERVICE PROGRAM
APPLICATION FOR EXCEPTION AND CERTIFICATION FORM**

This contract is subject to the County of Los Angeles Contractor Employee Jury Service Program (Program) (Los Angeles County Code, Chapter 2.203). All contractors and subcontractors must complete this form to either (1) request an exception from the Program requirements or (2) certify compliance. Upon review of the submitted form, the County department will determine, in its sole discretion, whether the bidder or proposer is excepted from the Program.

Company Name: WOODS MAINTENANCE SERVICES, INC.		
Company Address: 7260 STOLL AVENUE		
City: NORTH HOLLYWOOD	State: CA	Zip Code: 91605
Telephone Number: (818) 764-2515

If you believe the Jury Service Program does not apply to your business, check the appropriate box in Part I (you must attach documentation to support your claim). If the Jury Service Program applies to your business, complete Part II to certify compliance with the Program. Whether you complete Part I or Part II, sign and date this form.

Part I: Jury Service Program Is Not Applicable to My Business

☐ My business does not meet the definition of "contractor," as defined in the Program as it has not received an aggregate sum of \$50,000 or more in any 12-month period under one or more County contracts or subcontracts (this exception is not available if the contract/purchase order itself will exceed \$50,000). I understand that the exception will be lost and I must comply with the Program if my revenues from the County exceed an aggregate sum of \$50,000 in any 12-month period.

☐ My business is a small business as defined in the Program. It 1) has ten or fewer employees; and, 2) has annual gross revenues in the preceding twelve months which, if added to the annual amount of this contract, are \$500,000 or less; and, 3) is not an affiliate or subsidiary of a business dominant in its field of operation, as defined below. "Dominant in its field of operation" means having more than ten employees, including full-time and part-time employees, and annual gross revenues in the preceding twelve months, which, if added to the annual amount of the contract awarded, exceed \$500,000.

"Affiliate or subsidiary of a business dominant in its field of operation" means a business which is at least 20 percent owned by a business dominant in its field of operation, or by partners, officers, directors, majority stockholders, or their equivalent, of a business dominant in that field of operation.

☐ My business is subject to a Collective Bargaining Agreement that expressly provides that it supersedes all provisions of the Program. **ATTACH THE AGREEMENT.**

Part II: Certification of Compliance

☒ My business has and adheres to a written policy that provides, on an annual basis, no less than five days of regular pay for actual jury service for full-time employees of the business who are also California residents, or my company will have and adhere to such a policy prior to award of the contract.

I declare under penalty of perjury under the laws of the State of California that the information stated above is true and correct.

Our relationship with Graffiti Control Systems goes back some twelve years now and we have had no incident that has been too large or difficult to manage.

We would recommend Graffiti Control Systems to any agency in need of an efficient program to remove graffiti and provide safety and security to its residents.

SAFETY PROGRAM

Safety First Priority

The personal safety and health of each employee of WOODS MAINTENANCE SERVICES, INC. is of primary importance. Prevention of occupationally-induced injuries and illness is of such consequence that it will be given precedence over operating productivity. To the greatest degree possible, management will provide all mechanical and physical protection required for personal safety and health, but our employees must bear primary responsibility for working safely. A little common sense and caution can prevent most accidents from occurring.

Individual Cooperation Necessary

WOODS MAINTENANCE SERVICES, INC. maintains a safety and health program conforming to the best practices of our field. To be successful, such a program must embody proper attitudes towards injury and illness prevention on the part of supervisors and employees. It requires cooperation in all safety and health matters, not only of the employer and employee, but between the employee and all co-workers. Only through such a cooperative effort can a safety program in the best interests of all be established and preserved. Safety is no accident; think safety and the job will be safer.

Safety Program Goals

The objective of WOODS MAINTENANCE SERVICES, INC. is a safety and health program that will reduce the number of injuries and illness to an absolute minimum, not merely in keeping with, but surpassing the best experience of similar operations by others. Our goal is zero accidents and injuries.

Safety Policy Statement

It is our policy that accident prevention shall be considered of primary importance in all phases of operation and administration. It is

SAFETY PROGRAM

Management's intention to provide safe and healthy working conditions and to establish and insist upon safe practices at all times by all employees.

The prevention of accidents is an objective affecting all levels of our company and its operations. It is, therefore, a basic requirement that each supervisor make the safety of all employees an integral part of his or her regular management function. It is equally the duty of each employee to accept and follow established safety regulations and procedures.

Every effort will be made to provide adequate training to employees. However, if an employee is ever in doubt about how to do a job safely, it is his or her duty to ask a qualified person for assistance. Employees are expected to assist management in accident prevention activities. Unsafe conditions must be reported immediately. Fellow employees that need help should be assisted. Everyone is responsible for the housekeeping duties that pertain to their jobs.

Every injury that occurs on the job, even a slight cut or strain, must be reported to management and/or the Responsible Safety Officer as soon as possible. Under no circumstances, except emergency trips to the hospital, should an employee leave the work site without reporting an injury. When you have an accident, everyone is hurt. Please work safely. Safety is everyone's business.

Safety Rules for All Employees

It is the policy of WOODS MAINTENANCE SERVICES, INC. that everything possible will be done to protect you from accidents, injuries and/or occupational disease while on the job. Safety is a cooperative undertaking requiring an ever-present safety consciousness on the part of every employee. If an employee is injured, positive action must be taken promptly to see that the employee receives adequate treatment. No one likes to see a fellow employee injured by accident. Therefore, all operations must be planned to prevent accidents. To carry out this policy, the following rules will apply:

SAFETY PROGRAM

- ♣ All employees shall follow the safe practices and rules contained in this manual and such other rules and practices communicated on the job. All employees shall report unsafe conditions or practices to the proper authority, including the supervision on the project, and, if corrective action is not taken immediately, a governmental authority with proper jurisdiction over such practices.
- ♣ The President shall be responsible for implementing these policies by insisting that employees observe and obey all rules and regulations necessary to maintain a safe work place and safe work habits and practices.
- ♣ Good housekeeping must be practiced at all times in the work area. Clean up all waste and eliminate any dangers in the work area.
- ♣ Suitable clothing and footwear must be worn at all times. Personal protection equipment (PPE) (hardhats, respirators, eye protection) must be worn whenever needed.
- ♣ All employees will participate in a safety meeting conducted by their supervisor once every thirty days.
- ♣ Anyone under the influence of intoxicating liquor or drugs, including prescription drugs which might impair motor skills and judgment, shall not be allowed on the job.
- ♣ Horseplay, scuffling, and other acts which tend to have an adverse influence on safety or well being of other employees are prohibited.
- ♣ Work shall be well planned and supervised to avoid injuries in the handling of heavy materials and while using equipment.
- ♣ No one shall be permitted to work while the employee's ability or alertness is so impaired by fatigue, illness or other causes that it might expose the employee or others to injury.
- ♣ There will be no consumption of liquor or beer on the job.
- ♣ Employees should be alert to see that all guards and other protective devices are in proper places and adjusted, and shall report any deficiencies to the President.
- ♣ Employees shall not handle or tamper with any electrical equipment, machinery or air or water lines in a manner not within the scope of their duties.

SAFETY PROGRAM

- ♣ All injuries should be reported to the President so that arrangements can be made for medical or first aid treatment.
- ♣ When lifting heavy objects, use the large muscles of the leg instead of the smaller muscles of the back.
- ♣ Do not throw things, especially material and equipment. Dispose of all waste properly and carefully. Bend all exposed nails so that they do not hurt anyone removing the waste.

Training

Employee safety training is another requirement of an effective injury and illness prevention program. While WOODS MAINTENANCE SERVICES, INC. believes in skills training, we also want to emphasize safety training. All employees should start the safety training by reading this manual and discussing any problems or safety concerns with your direct supervisor. You may wish to make notes in the margins of this manual where it applies to your work.

Safety and Health Training

Training is one of the most important elements of any injury and illness prevention program. Such training is designed to enable employees to learn their jobs properly, bring new ideas to the workplace, reinforce existing safety policies and put the injury and illness prevention program into action.

Training is required for both supervision and employees alike. The content of each training session will vary, but each session will attempt to teach the following:

- ♦ The success of our injury and illness prevention program depends on the actions of individual employees as well as a commitment by the Company.
- ♦ Each employee's immediate supervisor will review the safe work procedures unique to that employee's job, and how these safe work procedures protect against risk and danger.

SAFETY PROGRAM

- ◆ Each employee will learn when personal protective equipment is required or necessary, and how to use and maintain the equipment in good condition.
- ◆ Each employee will learn what to do in case of emergencies occurring in the workplace. Supervisors are also vested with special duties concerning the safety of employees. The supervisors are key figures in the establishment and success of the Company's injury and illness prevention program. They have primary responsibility for actually implementing the injury and illness prevention program, especially as it relates directly to the workplace. Supervisors are responsible for being familiar with safety and health hazards to which employees are exposed, how to recognize them, the potential effects of these hazards, and rules and procedures for maintaining a safe workplace. Supervisors shall convey this information to the employees at the workplace, and shall investigate accidents according to the accident investigation policies contained in this manual.

Periodic Safety Training Meetings

WOODS MAINTENANCE SERVICES, INC. has safety meetings every 90 days. The purpose of the meeting is to convey safety information and answer employee questions. The format of most meetings will be to review, in language understandable to every employee, the content of the injury prevention program, special work site hazards, serious concealed dangers, and material safety data sheets. These meetings are mandatory and compensable.

OSHA Records Required

Copies of required accident investigations and certifications of employee safety training shall be maintained by the Responsible Safety Officer. A written report will be maintained on each accident, injury or on-the-job illness requiring medical treatment. A record of each such injury or illness is recorded on OSHA Log and Summary of Occupational Injuries Form 200, according to its instructions. Supplemental records of each injury are

SAFETY PROGRAM

maintained on OSHA Form 101, or Employee Report of Injury or Illness Form 5020. Every year, a summary of all reported injuries or illnesses is posted no later than February 1, for one month, until March 1, on OSHA Form 200. These records are maintained for five years from the date of preparation.

Safety Equipment

Proper safety equipment is necessary for your protection. The Company provides the best protective equipment possible to obtain.

Use all safeguards, safety appliances or devices furnished for your protection and comply with all regulations that may concern or affect your safety. Wear gear properly - all snaps and straps fastened, cuffs not cut or rolled.

Your supervisor will advise you as to what protective equipment is required for your job. Certain jobs require standard safety apparel and appliances for the protection of the employee. Your supervisor is aware of the requirements and will furnish you with the necessary approved protective appliances. These items shall be worn and effectively maintained as a condition of your continued employment and part of our mutual obligation to comply with the Occupational Safety and Health Act.

Safety goggles, glasses and face shields shall correspond to the degree of hazard, i.e. chemical splashes, welding flashes, impact hazard, dust, etc. Do not alter or replace an approved appliance without permission from your supervisor.

Rubber gloves and rubber aprons shall be worn when working with acids, caustics and other corrosive materials.

Accident Prevention Policy Posting

Each employee has a personal responsibility to prevent accidents. You have a responsibility to your family, to your fellow workers and to the Company. You will be expected to observe safe practice rules and instructions relating to the efficient handling of your work. Your responsibilities include the following:

- ♣ Incorporate safety into every job procedure. No job is done efficiently unless it has been done safely.
- ♣ Know and obey safe practice rules.

SAFETY PROGRAM

- ♣ Know that disciplinary action may result from a violation of the safety rules.
- ♣ Report all injuries immediately, no matter how slight the injury may be.
- ♣ Caution fellow workers when they perform unsafe acts.
- ♣ Don't take chances.
- ♣ Ask questions when there is any doubt concerning safety.
- ♣ Don't tamper with anything you don't understand.
- ♣ Report all unsafe conditions or equipment to your supervisor.

Accident Prevention Policy Posting

A copy of this manual will be posted in the work area.

It is the policy ~~WOODS~~ WOODS MAINTENANCE SERVICES, INC. to provide a safe and clean workplace and to maintain sound operating practices. Concentrated efforts shall produce safe working conditions and result in efficient, productive operations. Safeguarding the health and welfare of our employees cannot be stressed too strongly.

Accident prevention is the responsibility of all of us. Department heads and supervisors at all levels shall be responsible for continuous efforts directed toward the prevention of accidents. Employees are responsible for performing their work in a safe manner.

The observance of safe and clean work practices, coupled with ongoing compliance of all established safety standards and codes, will reduce accidents and make our Company a better place to work.

Safety Audits

The best method to establish a safer workplace is to study past accidents and worker compensation complaints. By focusing on past injuries, the Company hopes to avoid similar problems in the future. Therefore, whenever there is an accident, and in many cases upon review of past accidents, you may be requested to participate in a safety audit interview.

SAFETY PROGRAM

During the interview, there will be questions about the nature of the investigation and the workplace safety related to the incident. Please answer these questions honestly and completely. Also, please volunteer any personal observations and/or suggestions for improved workplace safety.

Based upon the study of past accidents and industry recommendations, a safety training program has been implemented. In addition to other preventative practices, there will be a group discussion of the cause of the accident and methods to avoid the type of accidents and injury situations experienced in the past. Work rules will be reviewed and modified based upon the study of these accidents.

In addition to historical information, workplace safety depends on workplace observation. Your supervisor is responsible for inspecting your working area daily, before and while you are working. However, this does not mean that you are no longer responsible for inspecting the workplace also. Each day, before you begin work, inspect the area for any dangerous conditions. Inform your supervisor of anything significant, so other employees or guests are advised. You may also be given written communications regarding unsafe conditions or serious concealed dangers. Review this communication carefully and adjust your workplace behavior to avoid any danger or hazards. If you are unclear or unsure of the significance of this written communication, contact your supervisor and review your planned actions before starting to work. It is better to wait and check, than to go ahead and possibly cause an injury to yourself or others.

Accident Investigation

A primary tool used by WOODS MAINTENANCE SERVICES, INC. to identify the areas responsible for accidents is a thorough and complete accident investigation (see included forms). The results of each investigation will be reduced to writing and submitted for review by management and Company's insurance carriers.

A written report should be prepared from notes and diagrams made at the scene. All statements should include the time and date given, and the

SAFETY PROGRAM

town or county where the statement was made. If the statement is intended to be used in court proceedings, a suitable jurat is required, otherwise a simple statement that the description is sworn to be true under the penalty of perjury with the date, place and time included. All photographs or video recordings should be similarly identified. Let people know on tape that they are being recorded. Also, make sure that the names and addresses, as well as the day and evening phone numbers of all eye witnesses are noted and recorded.

If a formal police report or other official investigation is conducted by any government agency, get the name and badge number of the official, or a business card, and find out when a copy of the official report will be available to the public. If you are requested to make a statement, you have the right to have a Company lawyer attend your statement at no cost to you.

A satisfactory accident or incident report will answer the following questions:

- ◆ What happened? The investigation report should begin by describing the accident, the injury sustained, the eyewitnesses, the date, the time and location of the incident and the date and time of the report. Remember, who, what, where, when and how are questions that this report must address.
- ◆ Why did the accident occur? The ultimate cause of the accident may not be known for several days after all the data are analyzed. However, if an obvious cause suggests itself, include your conclusions as a hypothesis at the time you give your information to the person in charge of the investigation.
- ◆ What should be done? Once a report determines the cause of the accident, it should suggest a method of avoiding future accidents of a similar character. This is a decision by the Responsible Safety Officer and the Project Supervisor, as well as top management. Once a solution has been adopted, it is everyone's responsibility to implement it.
- ◆ What has been done? A follow up report will be issued after a reasonable amount of time to determine if the suggested solution

SAFETY PROGRAM

- ◆ was implemented, and if so, whether the likelihood of accident has been reduced.

Company Report Forms

Attached, for use by Supervisors and employees involved in an accident, are report forms specifically to aid in the investigation of all accidents, incidents and injuries.

Additionally, there are forms to be use to evaluate specific conditions and for verifying safety training for each employee.
